

Trainee/Junior C# .NET Engineer

# Anton Yevchenko

## ▼ About me

I'm a professional engineer with 10+ years of experience in design and technology. However, I'm eager to transition into the field of software development due to my passion for abstract coding tasks. My background in engineering has honed my problem-solving skills and analytical mindset, making this transition a logical and exciting step for me. I am highly motivated and accustomed to dedicating 45-50+ hours per week to work and learning. My commitment to continuous self-improvement drives my desire to excel in this new role.
